Registration opens 30 mins before start time

Half day programme: $32/day | Full day programme: $64/day
3pm - 5pm extended day add-on: $15/day

While this programme includes Christmas-inspired projects, activities can be adapted to reflect a range of cultures, celebrations, and interests.

Monday 21 December

Yarn Wrapped Decorations
Create your own festive decorations using colourful yarn, wrapping, winding and weaving your way around various Christmas shapes. Experiment with different colours and textures to make a unique decoration to hang on your tree or share as a handmade gift.

Christmas Stencil Splatters
Get creative with Christmas stencils, splashes and splatters! Cut out a festive shape, then have fun flicking and splattering paint to fill the space with colour. Once it's dry, add your own finishing touches and festive details with pens to make a one-of-a-kind Christmas creation.

Tuesday 22 December

Tessellating Trees
Explore patterns, shapes and colour as you create a Christmas tree design with a twist! Repeat a smaller tree shape to build a larger tessellating pattern, then bring each little tree to life with watercolour, pencil and pen. Experiment with different colours and details to create a festive artwork full of pattern and personality.

Brilliant Bauble Building
Make your own colourful 3D Christmas baubles to add a handmade touch to the festive season! Decorate paper circles with patterns, colours and designs, then fold and layer them together to create a bauble that pops out in all directions. A fun way to turn simple paper shapes into something special for the Christmas tree.
